RUST WARRANTY AVAILABLE OPTIONS

Surface Rust Perforation

Warranty against outside-in rust perforation (hole) where the rust originated on the finished painted body sheet metal panels.

Paint Bubbling

Defined as a paint bubble on the painted outer-body sheet metal panel where no rust and/or bare metal is showing and the paint is not broken, cracked, split, chipped, peeled, delaminated, flaked or worn off or missing around and leading up to the paint bubble.

Cosmetic Rust

Surface rust damage where the paint is missing and the surface rust area is at least two centimeters in diameter or larger.

Areas Covered:

When any of these coverages are selected the areas of the vehicle covered are the following:

- Doors*
- Front fenders
- Rear quarter panels
- Roof
- Trunk lid*
- Engine hood*

* Coverage on exterior facing position of panel

CORROSION PROTECTION

Final Coat's E.I.C.C.T., the most advanced corrosion protection technology available today. Our unique patented surface protection is safe and eco-friendly and is available all types of trucks, SUV's, hybrid and electric models.

When installed by your dealer, our corrosion technology slows down the corrosion process by sending a unique AC wave signal onto the sheet metal panels of your entire vehicle, helping to protect all inside and outside sheet metal surface areas.

ONLY OUR PATENTED TECHNOLOGY OFFERS:

- Testing that has proven to reduce the rate of corrosion on automotive sheet metal panels by up to 99.7%.
- The only automotive corrosion technology to be published in a highly reputable science journal.
- A comprehensive warranty that extends well beyond what the manufacturer offers.
- A patented pulse-wave signal that is harmless to you and your vehicle.
- The most environmentally friendly corrosion solution available today.
- Protection against areas rust chemical spray could never protect.
- Total corrosion perforation (hole) protection.

For more information on our technology, lab, testing and videos please visit our website at www.finalcoat.com/module

PAINT PROTECTION

Final Coat Paint Protection is an eco-friendly and VOC-free product specifically formulated to bond directly to your vehicle's clear-coat finish. Our Paint Protection provides a lasting protective barrier and creates a smooth, easy to clean surface that resists adhesion and deflects UV rays.

Professionally installed by trained technicians to help keep your vehicle looking showroom new.

WARRANTED AGAINST PERMANENT DAMAGE FROM:

- Acid rain
- Tree sap
- Bird droppings
- Road tar
- Salt
- Overspray
- Insect damage
- Industrial fallout
- Oxidation & loss of gloss

AREAS OF OUTER-BODY SHEET METAL PANELS COVERED:

- Roof
- Front fenders
- Doors
- Engine hood
- Rear quarter panels
- Trunk hood or tailgate

INTERIOR PROTECTION

Specially formulated to protect your interior surfaces against permanent stains from food and beverages.

This eco-friendly product provides a powerful and invisible barrier that remains effective even after numerous spills, with no change to the natural look and feel of the interior surface of your seats and dashboards.

OPTIONAL COVERAGE

- Accidental rips, tears, or burns.

WARRANTED AGAINST PERMANENT DAMAGE FROM:

- Accidental spills, or stains.

FLOURO ACRYLATE POLYMER

Our fabric protection has an active ingredient of flouro acrylate polymer. This creates a long lasting layer of protection that penetrates and adheres to the fabric.

POLYMER RESIN FORMULA

Our leather protection is a polymer resin formula with mixtures of organic compounds. This creates a long lasting layer of protection that penetrates and adheres to the leather.
